ALLIED PANTHER

Product of  
**HIM TEKNOFORGE LTD.**

# VISION

To excel in the field of auto-components and Electric Vehicles and by creating a product which is at par with International Standards and provide real customer delight in domestic as well as International markets.

# MISSION

To promote green India and add value to the end customer by selling the best Electric Vehicles in the country.

## OUR EXCELLENCE

Hot & Warm Forging  
High-tech Machining  
Electric Vehicles

## COMPANY OVERVIEW

Him Teknoforge Ltd., **established in 1981**, is the flagship company of Him Group. Over the last three decades, it has come to be a name of repute internationally for its world-class technology, established quality processes, and overall engineering capabilities. Playing a significant role in the tractor, automobile and engineering industry, this professionally run, **IATF 16949 & NABCB (QM011) accredited company** is a **Tier 1 supplier** to India's top OEM's, Railways, Defence, Aftermarket and Exports.

## Our New Endeavour

Him Teknoforge Ltd. is the flagship company of Him Group, that was established in 1975 as a chemical fertilizer plant in the industrial town of Nalagarh, Himachal Pradesh. HIM GROUPS more than 40 year old journey has allowed us to have a presence in over 20 countries worldwide, and have 9 manufacturing locations spread across the length and breadth of the country.

The recent feather in the cap is venturing into Electric Vehicles. Considering the dynamic change in the Indian auto-market and the pollution norms Him Teknoforge Ltd. wants to add value to the country and to the customer by providing a GREEN PRODUCT which is low cost, renewable and cost effective.

The company is offering dealership opportunities at the moment across the length and breadth of the company.

# Infrastructure

In order to provide a high-quality product the company has completely indigenized the manufacturing process. Some key highlights are as follows:

- 1) State of the Art automatic Paint shop following all certified production & safety standards
- 2) Pneumatic Assembly Line giving us greater flexibility and quality product
- 3) Testing Facilities for all electrical & mechanical components, giving us an edge in terms of credibility, trust and quality
- 4) Procuring best quality raw material through a very experienced and robust technical and commercial team
- 5) High endurance vehicle for extra/overloads as the vehicle includes greatest safety standards
- 6) State of art fixtures for accurate welding and a high strength frame & Chassis.

## Logistics:

Partnered with best Logistic companies to have a pan India widespread

## Partnership:

The Company envisions to provide the best facilities to all its partners. The company believes in the Green India future and promotes all stakeholders to be a part of this growth story.
